

COALING THE BOATS

Dusky Diamonds Doled Out to Pleading Citizens

Electric Plant Shut Down and Factories All Idle—Only 125 Tons of Coal in Town—Plenty of Wood on Burton Siding But C. N. R. Are Unable to Operate Their Branch

Bulletin Special.
Brandon, Jan. 22.—The fuel situation here this morning appeared very hopeful, but after a coal car had reached the city Sunday and more was expected, but no fuel arrived today and the outlook is now most serious. The C. N. R. people had promised to have their Carberry-Brandon line open by this evening, but this has not been done. City Foreman Smith went to Carberry on Sunday to look into affairs, and he came to the conclusion that the road could be operated without great delay but found that the road from Carberry to Brandon, where large quantities of wood are stored, was badly blocked. There is now a possibility that the C. P. R. will build a temporary line from Carberry to Brandon, but this is not certain. The C. N. R. at Carberry transfer the wood and bring it in over their line. The matter is being considered and it will shortly be known if the switch can be provided. At present this seems to be the only chance of getting wood from Burton siding. No coal arrived on the C. N. R. Belmont branch nor C. P. line to the Brandon siding today as had been expected, but cars are looked for from these directions hourly. The coal supply of the city has now decreased to about twenty-five tons of soft coal and one hundred tons of anthracite. All day long today incidents have been reported that the plant will be in operation until midnight. It is not expected that the plant will be in operation tomorrow unless more coal can be procured before morning. As a result of the closing down of the plant, the city has been idle today. In this city have been idle today. An informal meeting of the city council and the coal dealers of the city was held this afternoon to discuss the question.

MR. HYMAN'S RESIGNATION

If for Reasons of Ill Health Minister of Public Works is Unable to Attend to His Duties the Government Will be Under the Necessity of Accepting His Resignation

Bulletin Special.
Ottawa, Jan. 21.—Sir Wilfrid Laurier, in reply to a question put by Geo. E. Foster, as to the position of the resignation of Mr. Hyman, said that the request of Mr. Foster was quite reasonable and he (Laurier) was gratified by the manner in which he and his friends had dealt with the matter. "They have," proceeded the premier, "shown nothing but a kindly disposition towards the minister of public works and that is a disposition which we on this side most gratefully appreciate. It is quite natural that my hon. friend should want to know something more definite; I can assure him that I very shortly, within a couple of weeks, for instance, we do not receive favorable news from Mr. Hyman we shall have to press him for a definite answer as to his intentions. His intention was to resign, but fortunately he omitted a formalism which prevented the speaker leaving his current. We have sent communications to Mr. Hyman but unfortunately they were not able to reach him as yet. At present we have reason to believe that they can reach him and we expect to have an answer at any time. I do not press him any more, but he should not resign his cabinet position until he has no more to say because of the reasons which induced his resignation as a member of parliament. I am making this statement just to explain to my friends and my colleagues my gratification at the very first manner in which the Opposition are in this matter. In regard to the recent coalition government as soon as the tariff is changed I shall be able to make an announcement."

Mr. Aylesworth introduced a bill today to amend the Railway Act. The principal provision is the adoption of a recommendation of the Railway Commission that in certain cases where public interests are involved the counsel can be engaged with the approval of the minister of justice. Mr. Aylesworth is introducing another bill to amend the Northern Territories Act, which had for its object the reclassification of certain lands in the district as creating the Provinces of Alberta and Saskatchewan.

BOATERS WRECKED.

Lumber Hoekers Go to Pieces on New Brunswick Coast—Captain Drowned.

Bulletin Special.
St. George, N.B., Jan. 21.—The schooner Horace O. Morse, Captain Kearney, was driven ashore on Bliss Island Saturday night in a blinding snowstorm. Captain Kearney and one sailor, name unknown, of Boston, were drowned, the rest of the crew were rescued in a desolate condition, saving nothing, except what they stood in, and are at Bliss Harbor lighthouse awaiting word from the American consul. The Morse is a total wreck. She was bound from St. John for Philadelphia with a cargo of lath.

MURDER WILL OUT.

Minnesota Arrested for Cold Blooded Crime Committed Two Years Ago.

Bulletin Special.
Rendell, Minn., Jan. 21.—A sensational case here caused by the arrest of Paul Fournier and George Cyr, of Quiring, on a charge of murdering N. O. Dahl and his daughter Agnes near Quiring in April, 1904. The murder of Dahl was a very mysterious and cold blooded affair. Although several were arrested no tangible evidence was secured directly connecting any one with the crime. The murder occurred at a tremendous session all over the northern part of the state. Fournier and Cyr were brought to Rendell and lodged in jail. County Attorney Finkley is positive that he has the men who committed the murder and that at least one of them will be released from the shackles which he is wearing.

PREZIED FINANCE.

Toronto Mining Broker Accused of Stealing Cobalt Mining Stock.

Bulletin Special.
Toronto, Jan. 21.—M. J. Chambers, 22 years old, a member of the C. P. R. of King street west, was taken into custody this afternoon after an investigation lasting several weeks into the theft of a hundred share certificate in the Green-Mechan Mining company, from the office of Jno. M. Wallace, on Yonge street. The scrip was missed on December 4th last, shortly after Chambers had been seen by Wallace. He was questioned about it but claimed he did not see it.

CITY LEAGUE ISSUES PERMITS

Dection to Play With Helmick—Sibbold With Revillon's—Campbell Unmolested

The executive of the City League had a special meeting after last night's match at which President Sibbold presided and every club had its representative. The printer's permit to play with Revillon's in place of Helmick.

The executive of the City League had a special meeting after last night's match at which President Sibbold presided and every club had its representative. The printer's permit to play with Revillon's in place of Helmick.

A SOCIAL CLUB.

Milwaukee People Believe That Church Should be Centre of Social Activity.

Bulletin Special.
Milwaukee, Wis., Jan. 21.—The establishment of dancing classes as a part of the parish work of St. James' Episcopal church, the opening of a club room with billiards and pool tables in the parish house for the benefit of the young men every evening in the week and the agitation of cooking class by the industrial school were conducted by the women of the parish are advocated by the Rev. Frederick Edwards, the pastor, who desires the church to be a centre of social activity for the neighborhood.

STORM IN GODERICH.

Chimney Falls Through the Roof and Wrecks the Organ.

Bulletin Special.
Goderich, Ont., Jan. 21.—A terrific late yesterday played havoc with the recently finished Methodist church through the destruction of a thirty-foot brick chimney. Tons of brick and mortar crashed through the steel roof, wrecking the magnificent organ and surrounding fixtures.

HOB NOBS WITH BLUE BLOODS

Member for Red Deer Delivers Oration to the Twentieth Century Club in Boston

The Twentieth Century Club of Boston is perhaps the most representative club of all New England in the character of its members, drawn as they are from among those who are especially interested in social and political regeneration. It was therefore a great pleasure to the club to have Mr. John T. Moore, M.P., of Red Deer, in being asked to address the club at its Saturday luncheon some three weeks ago. Mr. Moore spoke on his favorite subject of the Canadian West and in his usual eloquent manner. He had such a hearty reception that he has been in demand at the Occasional Club and the Canadian Club during his stay in the east. Mr. N. C. Fowler, Jr., the noted author, gave a luncheon for him at the Boston City Club, where he had the pleasure of meeting some of the most representative men of the city.

THE STANLEY CUP COMES WEST

The Stanley Cup, Canada's much sought-after trophy, which has been sojourning in the east for many years, will occupy a prominent place in some Kenora store window for the next twelve months at least. At Montreal last night Kenora Tidies succeeded in pulling out a second victory in the cup series, and thus secured possession of the silverware. The score on Monday night was 8 to 6, and unlike the previous contest the most exciting end of the game was in the last half.

The game started out with Montreal very much to the good and they got the first burst in eleven minutes. Kenora answered the next two, taking thirty-seconds for each two. Then Montreal got in for a tally in one minute, but Kenora crowded on steam and landed the next three hauls, making the half time score 5 to 2. After the breathing space the game grew more strenuous and it took the Tidies just ten minutes to locate the Kenora. With a lead of three goals Kenora tried on their side to come extent, putting most of their energy on the defense. It was a mistake, for Montreal came along with an unexpected burst of speed and had three more goals in 6 to 10 minutes, getting the puck in 2 3 and 11 12 minutes. With the score even and only a few minutes to play the Tidies came along with the best sample of hockey seen in the game and scored a tally in seven minutes on a rush by Pullin and a goal by Beaudry, and another in less than thirty seconds. Hooper getting possession immediately after the facelift, clearing the ice front and sending along a hot one from the side that Hearn was too slow for. When the final whistle blew the play was in Wanderers' territory.

SQUADRON ORDERS

By Capt. B. J. Saunders for C. O. A. Squadron, Absent on Leave.

Parade—The travelling escort for His Honor the Lieutenant Governor on the opening of the Alberta Legislature will parade at the Armouries at 10 p.m. on Thursday, the 24th January.

BREEZE IN THOROLO.

Thorold, Ont., Jan. 21.—During the wind storm last evening the Crystal Palace, or main building in the Thorold agricultural grounds, was blown down and completely demolished.

A BRANTFORD SCANDAL.

Fred Babcock Forged Elvira Gottschalk to Forge Check—Both Were Arrested.

Bulletin Special.
Brantford, Ont., Jan. 21.—Fred Babcock and Elvira Gottschalk, charged with issuing and obtaining money on forged checks, appeared at the police court today. Miss Gottschalk wrote a check being compelled by Babcock to get money somehow and Babcock presented the check and obtained the money from the Imperial bank. Restoration of the money has been made, but Babcock was found guilty of uttering and obtaining money on a forged check and was committed for trial at the spring assizes. The girl was released on suspended sentence.

DAMAGE AT NIAGARA.

Storm Wages Huge Ruin into the River and Smashes Malt into the Malt Docks.

Bulletin Special.
Niagara Falls, Ont., Jan. 21.—The loss to the grape route as a result of the wind storm of Saturday night and yesterday will reach \$10,000 and will involve the closing of the route for at least six weeks. The road bed is almost all washed out into the river for about a mile between the U. T. R. bridge and the wharf. The loss to the malt of the malt docks and buildings on both sides of the river will reach \$5,000 and to the Hydraulic Power Co. and the electric railway line at the falls, another \$5,000. The loss to both power companies will be small, the heavy stone walls of the works and forebays having withstood the strain of the rushing torrents.

THE STANLEY CUP COMES WEST

The Stanley Cup, Canada's much sought-after trophy, which has been sojourning in the east for many years, will occupy a prominent place in some Kenora store window for the next twelve months at least. At Montreal last night Kenora Tidies succeeded in pulling out a second victory in the cup series, and thus secured possession of the silverware. The score on Monday night was 8 to 6, and unlike the previous contest the most exciting end of the game was in the last half.

The game started out with Montreal very much to the good and they got the first burst in eleven minutes. Kenora answered the next two, taking thirty-seconds for each two. Then Montreal got in for a tally in one minute, but Kenora crowded on steam and landed the next three hauls, making the half time score 5 to 2. After the breathing space the game grew more strenuous and it took the Tidies just ten minutes to locate the Kenora. With a lead of three goals Kenora tried on their side to come extent, putting most of their energy on the defense. It was a mistake, for Montreal came along with an unexpected burst of speed and had three more goals in 6 to 10 minutes, getting the puck in 2 3 and 11 12 minutes. With the score even and only a few minutes to play the Tidies came along with the best sample of hockey seen in the game and scored a tally in seven minutes on a rush by Pullin and a goal by Beaudry, and another in less than thirty seconds. Hooper getting possession immediately after the facelift, clearing the ice front and sending along a hot one from the side that Hearn was too slow for. When the final whistle blew the play was in Wanderers' territory.

PETERSON RESIGNS.

Secretary of the Ontario Railway Commission Will Leave the Government Employ.

Bulletin Special.
Toronto, Jan. 22.—W. H. Peterson, secretary of the Teniskaming and Northern Ontario Railway Commission, has resigned to accept an outside position in the business world. He will probably be succeeded by A. J. McNeil, present general accountant of the commission.

HOTELS MAY CLOSE.

No Coal or Wood in Virden and no Care Available.

Bulletin Special.
A despatch from Virden, Manitoba, received at 2:30 p.m. today states that the town is without a pound of coal or a stick of wood and that unless help arrives by tomorrow the hotels will be forced to close. The weather is very cold. The dealers have been clamoring for coal for weeks but are unable to obtain supplies through a shortage of cars.

TO INVESTIGATE.

LUMBER COMBINE

Ottawa Government Proposes to Appoint a Committee of Nine to Determine Whether or Not Rapid Rise in Prices is Due to Combination of Coast Operators—B. C. Members Against Investigation

Bulletin Special.
Ottawa, Jan. 22.—Mr. Herron, of Alberta, offered resolution in the House today declaring that it is important for the rapid settlement of the Northwest that lumber should be supplied to settlers at as low a rate as possible; that it is claimed an unlawful combine exists among the manufacturers and dealers for the purpose of unjustly enhancing the price of lumber to the consumer and therefore a select committee of nine should be appointed for the purpose of enquiring into the matter. In support of his resolution Mr. Herron declared that there was nothing as necessary to the new settlers as lumber at a reasonable rate. At the present time the prices of lumber are unreasonably high. It is believed that this is due to the operation of a combine which should be dealt with under the act provided for that purpose. Mr. Herron said that he had been told on the best of authority that not only was there a combination in existence but it dispensed with the risk of investigation to retailers who sold lumber to settlers who were out of the combine. For selling to any one who was not on the list the punishment for the first offence was a fine of \$50 and for a second offence \$100 a car, and for the third offence the refusal to further supplies of lumber from the mills.

Mr. Kennedy, of New Westminster, said that he could speak for the coast mills, but not for the mountain mills of British Columbia. He declared that the prices the mill men were offering for their lumber at the present time was not unreasonable. They had to pay from \$5 to \$10 for their logs and they had to pay the cost and labor of towing them. They had to pay much higher than in the past for labor and they had to pay the cost of towing them. At the prices charged for lumber there was not a great deal left for the manufacturers when he pays these other charges. Mr. Kennedy said that the railways

TIMBER OUTPUT

IS HALF BILLION

Estimate of British Columbia Sawmill Cut for Current Year—Camps All Closing Down on Account of Cold Weather

Bulletin Special.
Vancouver, Jan. 21.—All the camps have closed down owing to cold weather, and practically the only logging coming to market are those that have been in the water. Owing to the increased demand for lumber, logs were brought to market during the last year in greater quantity than ever before in the history of the province. The new scaling law did not go into effect until July, but from July until December, inclusive, a record was set in bringing them to market. The scale in the coast district not taking into account crown granted timber, was as follows, in feet: July 18,200,000; August 29,000,000; September 25,514,000; October 27,048,000. No logs were scaled in December, 34,852,000; total 177,820,000.

The logs brought down in December were mostly old stock, and were being lying in the water, and the demand easing up in other lines for the logs, they were able to devote more time to bringing them to market. It is estimated that the mountain cut of logs, together with logs cut from crown grants, would be about double the logs cut on the coast from lands under special license. This the total cut for the province for the past six months would be \$3,625,000, or for the year 50,000,000, for a very conservative estimate.

LITTLE ELDERADO

Has Passed Away

She Was the First White Child Born on Famous Yukon Placer Creek—At Birth Was Showered With Gold Dust

Bulletin Special.
Inverness, Jan. 21.—Little Mary Eldorado Lennan, who was buried recently in St. Mary's church, was the first white child born in the region of the famous gold waterway whose name she bore. She was the recipient of many attentions from the inhabitants of the North in consequence of this distinction, and her death caused much real sorrow. Little Eldorado, as she was known, had been attending school at St. Mary's Catholic mission, and her little schoolmate attended the funeral.

Little Eldorado, when born at Eldorado eight years ago, was so joyful and so healthy that the baby miners who they thought to go to the mine in with gifts of pure gold, and the new newcomer \$1,000 in choice nuggets.

Some time ago little Eldorado contracted tubercular trouble which settled in her lungs. The parents planned to take her outside for an operation. The case suddenly became so severe that the little girl had to be taken to the hospital. After an operation the trouble went to the head, and the child died in a convulsion.

Little Eldorado's father sold his interests on Jackson Yukon a few days ago to the Yukon Consolidated and was preparing to go outside. Fred Lennan said that the reminder of a day's work without hard work.

WHICH

In the following paragraph on the social consequences of an irrigation system the Calgary Herald leaves its readers to judge whether its opposition to the Medicine Hat irrigation project arises from a fear that it will put "thousands of families in possession of desirable homes," that it will give opportunity for a "high grade of education," or that "fewer and better churches" will be built and lower and better ministers engaged.

"The enormous irrigation development now taking place in Alberta has been discussed in the past largely from the economic standpoint. The fact that agricultural production under artificial watering will increase the wealth of the province enormously, is not now questioned by any man. The bettering of irrigation on the social and educational problems of the west has not, however, been as prominently dwelt upon as the merits of the case deserve.

"The irrigation movement will put thousands of families in possession of the most desirable homes for their own comfort and for the welfare of the nation—the small but surely productive farms. This settlement of families on small tracts of land will give an opportunity never before known in our history for a high grade of education in its citizenship. This education can be provided for while these communities are in the formative state at less expense than would be required in the organization of the ordinary country schools, and will furnish these people with very much better educational privileges in every line. This desirable consummation can be had by a school house at a central point of say ten miles square.

"This school house will accommodate the pupils of twenty-five districts of four square miles each as usually formed under the present district school system, thus saving the expense of the construction, heating and care of twenty-four buildings. It will save twenty-four reference libraries and the apparatus necessary to illustrate the subjects to be taught in the twenty-four schools. It will also save the salaries of eighteen or twenty teachers, and at the same time secure the highest class of teachers, men and women of the best educational attainments, who, by reason of the closer grading possible and the stimulus of larger classes, will have much better opportunity to secure good results. In fact, these centralized schools can give all the advantages of a college to each settlement, to which will be added the very important moral and physical advantages of having the pupils at home on the farm at night, and on Saturdays and Sundays.

"The same remarks apply to the religious life of the communities. Fewer and better churches, fewer and better clergymen, and fewer and better places of worship, and the same of such density of settlement as is possible only in irrigated districts. The extension of rural telephone, frequent social intercourse, rural mail delivery, etc., will bring to the irrigated farm all of the conveniences of the town, and the absence of the drawbacks and pitfalls of the latter. Good roads and electric lines will speedily connect outlying districts with large centres of settlement.

"The irrigation movement is one of national importance. It will increase the highest grade of citizenship; more than ordinarily sound of mind and body. It can be a source of great happiness, and will perhaps be one of the most outstanding factors in the future social and economic life of the Province of Alberta."

TO REGULATE THE EXPORTING POWER

A bill has been introduced in the Federal House by Hon. A. B. Aylesworth, providing for a duty on electricity or electric power exported from Canada over wires and on petroleum, natural gas, water or other fluids when exported through pipe lines or other contrivances. The bill is an outcome of the development of electric power from Niagara falls, and originated in a desire to prevent the Canadian falls being turned into a mill race for the production of power for United States cities and enterprises. The scope of the measure was widened however to restrict the exportation of natural gas, petroleum and other fluids used in power production.

The bill provides as follows: "No person shall export any power or fluid through a license, or no power or fluid in excess of the quantity permitted by such license; provided that any person who immediately prior to the passing of this act is lawfully en-

gaged in the exportation of power or fluid, shall act, with respect to such exportation, be subject to the provisions of this act, until three months after this act goes into force, or until he has obtained a license under this act; provided, also, that his exportation does not at any time during the interval, notably exceed in quantity of power or light, the amount which he was exporting prior to the passing of this act.

"No person shall, without a license, construct or place in position any line of wire, or other conductor for the exportation of power, or any pipe line or other like contrivance for the exportation of fluid.

"Subject to regulations of the Governor in Council in that behalf, he minister may grant licenses subject to such conditions as he thinks proper for the exportation of power or fluid, where such power or exportation exists by local authority; and such licenses shall be revocable upon such notice to the licensee, as the minister deems reasonable in each case.

"Any such license may provide that the quantity of power or fluid to be exported shall be limited to the surplus, after the licensee has supplied for distribution to his customers for use in Canada power or fluid to the extent defined by such license, at prices in accordance with the conditions, rules and regulations prescribed by the Governor in Council.

"Every such license shall be revocable at will by the minister if the licensee refuses or neglects to comply with any of the conditions imposed with regard to the supply and distribution of power or fluid in Canada.

"Subject to any regulation of the Governor in Council in that behalf, the minister may grant licenses for the construction, placing or laying of any line of wire or conductor for the exportation of power, or of any pipe line or other like contrivance for the exportation of fluid.

"Every person who exports any such power or fluid contrary to the provisions of this act shall for each day on which any such export took place be liable to a penalty not exceeding \$5,000 and not less than \$1,000.

"Every person who, contrary to the provisions of this act, places or lays in position any line of wire or other conductor for the exportation of power, or of any pipe line or other like contrivance for the exportation of fluid, shall for each such offence be liable to a penalty not exceeding \$5,000 and not less than \$1,000, and to forfeiture and confiscation of such line of wire or other conductor, pipe line or other contrivance, which may forthwith upon such conviction be destroyed or removed by direction of the minister.

"The Governor in Council may by proclamation published in The Canada Gazette impose duties not exceeding six pence per horsepower upon power exported from Canada, or not exceeding (c) cents per cubic foot of fluid exported from Canada, and such duties shall be chargeable according to after the publication of such proclamation.

"The Governor in Council may by proclamation published in The Canada Gazette exempt from the payment of such duties such persons as comply with the intention of the minister with regard to the quantity of power or fluid to be supplied by such persons for distribution to customers for use in Canada."

GOVERNMENT OF THE PROVINCE
OF SASKATCHEWAN.

Public Works Department.
Sealed tenders will be received up
to 4:30 p.m. of MONDAY, February
26, 1907, for the erection of a Land
Titles Office Building at Regina, Sas-
katchewan.

The building will be about 80 ft. x 20
ft. reinforced concrete fireproof con-
struction, cut stone facing and two
stories in height and other details to
match this style of work.

The plumbing, heating and ventila-
tion and electric light wiring will
not be included in this contract.

Each tender must be accompanied
by an accepted cheque or other sat-
isfactory deposit for the amount of
\$2,000.00.

This deposit will be forfeited if the
tender fails to execute the contract
and bond when requested, and will be
returned when the contract and bond
is signed and the work is commenced.

The deposit of unsuccessful tenders
will be returned when the con-
tract is signed.

The right to reject any or all tenders
regularly therein is to be at the
discretion of the Commissioner of
Public Works.

Plans, specifications, form of tender
and all information may be obtained
on application to the undersigned.
The unauthorized insertion of this
advertisement will not be paid for.

SPORT

HOCKEY.

Last Wednesday's hockey match was decided by the score of 11-0.

Calgary defeated "Westminster" on Thursday night in Calgary ice. The score was 11-0.

Setting in short full of hockey this year. They have a very large of four teams: Banter, Maple team, Lumberjacks and Band.

Calgary who jumped Berlin O. H. A. team for "Banter" team in the provincial league of making good in company. In the first game he scored two of the six goals his team got against Canadian team.

The "Victory" team only devote four lines to tell of the "Banter" team's struggle on the 11th inst., when "Banter" pulled out a 7-1 victory. The Times says it was a very rough game.

The regular banders at the Pacific have organized a hockey club and are open to receive challenges from teams from similar institutions - temperance houses, of course, excepted. There is good material for a team at the house, though it is said, a couple of the possible candidates for hockey honors learned the game in the school on artificial ice, and may not be able to sustain their previous reputations at the game here. Address all challenges to "Manager Hockey Team," Peninsula Hotel, City.

SPORTS OF ALL SORTS.

Morris Wool, amateur champion skater at St. Louis, Canada, the United States, having some trouble to retain his amateur standing among the line. It is alleged he accepted cash in a couple of races in New York state last year.

The Winnipeg Free Press in authority for the statement that "Norval Bock" was the best claim to the title of world champion skater by his defeat of "Prize" last night.

Prize Bock has accepted the \$10,000 offered by the Montreal Athletic Club for a wrestling match between himself and George Hackenschmidt, the new favorite for the club to succumb to Hackenschmidt, costs in and carry his end of the match.

Jackie Palmer, an ex-heavyweight champion of England, is coming to America next month and is anxious to get on a match with Jack "Twin" Sullivan.

At Hutchinson, N.D., on Tuesday, Dr. Lasker, the world's champion chess player, engaged in a record contest when he was pitted against forty players all at one time. He won thirty-six games and the other four were draws.

In the Galt-Herman battle the former drew \$25,000. The mill went against rounds twenty-four miles. The rate of the \$250,000, almost four times as much as Rockefeller draws per figure in the same magnitude income in thirty minutes.

Now that a dual between Jeffries and Squires, the Australian, seems impossible, the Pacific Club of Los Angeles, Cal., is endeavoring to arrange a fight between O'Brien and Squires for April.

Chas. Anderson, of Brandon, has said he is pining home. Dr. J. G. Galt, of Portage La Prairie, says he is to be considered the fastest mailman home on ice in Manitoba.

The world's record for trotting or pacing on ice was broken at Port Perry, Ont., last week, by the pace, Blackbird, who went the mile in 2:14. The previous record for a trotter was 2:15, made by Crescent at Ottawa, and the best previous mark for a pacer was 2:17 by Blackbird.
